ROTH CH ACQUISITION IV CO.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

NOTE 1. DESCRIPTION OF ORGANIZATION, BUSINESS OPERATIONS AND LIQUIDITY

Roth CH Acquisition IV Co. (the “Company”) was incorporated in Delaware on February 13, 2019. The Company is a blank check company formed for the purpose of entering into a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or other similar business combination with one or more businesses or entities (the “Business Combination”).

The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of June 30, 2022, the Company had not commenced any operations. All the Company’s activities through June 30, 2022 related to its formation and the initial public offering (“Initial Public Offering”), which is described below, and subsequent to the Initial Public Offering, identifying a target company for a Business Combination. The Company will not generate any operating revenues until after the completion of a Business Combination, at the earliest. The Company generates non-operating income in the form of interest income on marketable securities held in the Trust Account (as defined below).

The registration statement for the Company’s Initial Public Offering was declared effective on August 5, 2021. On August 10, 2021, the Company consummated the Initial Public Offering of 11,500,000 units (the “Units” and, with respect to the shares of common stock included in the Units sold, the “Public Shares”), which included the full exercise by the underwriters of their over-allotment option in the amount of 1,500,000 Units, at \$10.00 per Unit, generating gross proceeds of \$115,000,000, which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 461,500 units (the “Private Units”) at a price of \$10.00 per Private Unit in a private placement to certain of the Company’s initial stockholders, generating gross proceeds of \$4,615,000, which is described in Note 4.

Transaction costs amounted to \$1,646,673, consisting of \$1,150,000 of underwriting fees, and \$496,673 of other offering costs.

Following the closing of the Initial Public Offering on August 10, 2021, an amount of \$116,725,000 (\$10.15 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Units was placed in a trust account (the “Trust Account”), located in the United States and will be held in cash items or invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), with a maturity of 185 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting the conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account, as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Units, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete a Business Combination having an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding taxes payable on income earned on the Trust Account) at the time of the agreement to enter into an initial Business Combination. The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act.

The Company will provide its holders of the outstanding Public Shares (the “public stockholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The public stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially anticipated to be \$10.15 per Public Share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations). There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants.

ROTH CH ACQUISITION IV CO.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

The Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 either immediately prior to or upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required by law and the Company does not decide to hold a stockholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Certificate of Incorporation (the “Amended and Restated Certificate of Incorporation”), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (“SEC”) and file tender offer documents with the SEC containing substantially the same information as would be included in a proxy statement prior to completing a Business Combination. If, however, stockholder approval of the transaction is required by law, or the Company decides to obtain stockholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks stockholder approval in connection with a Business Combination, the holders of the Company’s shares prior to the Initial Public Offering (the “Initial Stockholders”) have agreed (a) to vote their Founder Shares (as defined in Note 5), Private Shares (as defined in Note 4) and any Public Shares purchased during or after the Initial Public Offering in favor of approving a Business Combination and (b) not to redeem any shares in connection with a stockholder vote to approve a Business Combination or sell any shares to the Company in a tender offer in connection with a Business Combination. Additionally, each public stockholder may elect to redeem their Public Shares, irrespective of how or whether they vote on the proposed transaction.

The Initial Stockholders have agreed (a) to waive their redemption rights with respect to their Founder Shares, Private Shares and Public Shares held by them in connection with the completion of a Business Combination and (b) not to propose an amendment to the Amended and Restated Certificate of Incorporation that would affect a public stockholders’ ability to convert or sell their shares to the Company in connection with a Business Combination or affect the substance or timing of the Company’s obligation to redeem 100% of its Public Shares if the Company does not complete a Business Combination, unless the Company provides the public stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment.

The Company will have until February 10, 2023 to complete a Business Combination (the “Combination Period”). If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to the Company to pay taxes and liquidation expenses, divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining stockholders and the Company’s board of directors, dissolve and liquidate, subject in each case to the Company’s obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

The Initial Stockholders have agreed to waive their liquidation rights with respect to the Founder Shares and Private Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Initial Stockholders acquire Public Shares in or after the Initial Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit.

ROTH CH ACQUISITION IV CO.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

In order to protect the amounts held in the Trust Account, certain of the Initial Stockholders have agreed to be liable to the Company if and to the extent any claims by a vendor for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below (i) \$10.15 per Public Share or (ii) such lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a valid and enforceable agreement with the Company waiving any right, title, interest or claim of any kind they may have in or to any monies held in the Trust Account and except as to any claims under the Company's indemnity of the underwriters of Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Initial Stockholders will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Initial Stockholders will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (except the Company's independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Liquidity and Going Concern

As of June 30, 2022, the Company had \$401,681 in its operating bank account and working capital of \$737,923.

Until the consummation of a Business Combination, the Company will be using the funds not held in the Trust Account for identifying and evaluating prospective acquisition candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target businesses to acquire, and structuring, negotiating, and consummating the Business Combination.

The Company has incurred and expects to continue to incur significant costs in pursuit of its acquisition plans. The Company will need to raise additional capital through loans or additional investments from the Initial Stockholders and the Company's officers and directors or their affiliates. The Initial Stockholders and the Company's officers and directors or their affiliates may, but are not obligated to, loan the Company funds, from time to time or at any time, in whatever amount they deem reasonable in their sole discretion, to meet the Company's working capital needs. Accordingly, the Company may not be able to obtain additional financing. If the Company is unable to raise additional capital, it may be required to take additional measures to conserve liquidity, which could include, but not necessarily be limited to, curtailing operations, suspending the pursuit of a potential transaction, and reducing overhead expenses. The Company cannot provide any assurance that new financing will be available to it on commercially acceptable terms, if at all. If the Company is unable to complete the Business Combination because it does not have sufficient funds available, the Company will be forced to cease operations and liquidate the Trust Account.

In connection with the Company's assessment of going concern considerations in accordance with the Financial Accounting Standards Board's ("FASB's") Accounting Standards Update ("ASU") 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," management has determined that if the Company is unable to complete a Business Combination by February 10, 2023, then the Company will cease all operations except for the purpose of liquidating. The liquidity condition and the date for mandatory liquidation and subsequent dissolution raises substantial doubt about the Company's ability to continue as a going concern. No adjustments have been made to the carrying amounts of assets or liabilities should the Company be required to liquidate after February 10, 2023.

Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that COVID-19 could have a negative effect on the Company's financial position, results of operations and/or its search for a target company for a Business Combination, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ROTH CH ACQUISITION IV CO.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X of the SEC. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company’s Annual Report on Form 10-K as filed with the SEC on April 7, 2022. The interim results for the three and six months ended June 30, 2022 are not necessarily indicative of the results to be expected for the year ending December 31, 2022 or for any future periods.

Emerging Growth Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Securities Exchange Act of 1934, as amended) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statement with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of the condensed financial statements in conformity with GAAP requires the Company’s management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

ROTH CH ACQUISITION IV CO.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of June 30, 2022 and December 31, 2021.

Marketable Securities Held in Trust Account

At June 30, 2022 and December 31, 2021, substantially all of the assets held in the Trust Account were held in money market funds which are invested primarily in U.S. Treasury securities. The Company's investments held in the Trust Account are classified as trading securities. Trading securities are presented on the balance sheets at fair value at the end of each reporting period. Gains and losses resulting from the change in fair value of these investments are included in interest earned on marketable securities held in Trust Account in the accompanying condensed statements of operations. The estimated fair values of investments held in the Trust Account are determined using available market information.

Offering Costs

Offering costs consist of underwriting, legal, accounting and other expenses incurred through the balance sheet date that are directly related to the Initial Public Offering. Offering costs are allocated to the separable financial instruments issued in the Initial Public Offering based on a relative fair value basis, compared to total proceeds received. Offering costs amounted to \$1,646,673, which were initially charged to temporary equity and then accreted to common stock subject to redemption upon the completion of the Initial Public Offering.

Common Stock Subject to Possible Redemption

The Company accounts for its common stock subject to possible redemption in accordance with the guidance in Accounting Standards Codification ("ASC"), Topic 480 "Distinguishing Liabilities from Equity." Shares of common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption right that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) is classified as temporary equity. At all other times, common stock is classified as stockholders' equity. The Company's common stock features certain redemption rights that are considered to be outside of the Company's control and subject to occurrence of uncertain future events. Accordingly, at June 30, 2022 and December 31, 2021, common stock subject to possible redemption is presented at redemption value as temporary equity, outside of the stockholders' equity section of the Company's condensed balance sheets.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable common stock to equal the redemption value at the end of each reporting period. Immediately upon the closing of the Initial Public Offering, the Company recognized the accretion from initial book value to redemption amount value. The change in the carrying value of redeemable common stock resulted in a charge against additional paid-in capital.

At June 30, 2022 and December 31, 2021, the common stock subject to possible redemption reflected in the condensed balance sheets are reconciled in the following table:

Gross proceeds	\$ 115,000,000
Less:	
Common stock issuance costs	(1,646,673)
Proceeds allocated to Public Warrants	(4,427,500)
Plus:	
Remeasurement of carrying value to redemption value	7,799,173
Common stock subject to possible redemption	<u>\$ 116,725,000</u>

ROTH CH ACQUISITION IV CO.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

Warrant Classification

The Company accounts for warrants as either equity-classified or liability-classified instruments based on an assessment of the warrant's specific terms and applicable authoritative guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 480, Distinguishing Liabilities from Equity ("ASC 480") and ASC 815, Derivatives and Hedging ("ASC 815"). The assessment considers whether the warrants are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company's own common stock, among other conditions for equity classification. This assessment, which requires the use of professional judgment, is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

For issued or modified warrants that meet all of the criteria for equity classification, the warrants are required to be recorded as a component of additional paid-in capital at the time of issuance. For issued or modified warrants that do not meet all the criteria for equity classification, the warrants are required to be recorded at their initial fair value on the date of issuance, and each balance sheet date thereafter. Changes in the estimated fair value of the warrants are recognized as a non-cash gain or loss on the statements of operations. The Company's has analyzed the Public Warrants and Private Warrants and determined they are considered to be freestanding instruments and do not exhibit any of the characteristics in ASC 480 and therefore are not classified as liabilities under ASC 480.

Income Taxes

The Company accounts for income taxes under ASC 740, "Income Taxes." ASC 740, Income Taxes, requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the unaudited condensed financial statements and tax basis of assets and liabilities and for the expected future tax benefit to be derived from tax loss and tax credit carry forwards. ASC 740 additionally requires a valuation allowance to be established when it is more likely than not that all or a portion of deferred tax assets will not be realized. As of June 30, 2022 and December 31, 2021, the Company's deferred tax asset had a full valuation allowance recorded against it. Our effective tax rate was 14.05% and 0.00% for the three months ended June 30, 2022 and 2021, respectively and 2.86% and 0.00% for the six months ended June 30, 2022 and 2021, respectively. The effective tax rate differs from the statutory tax rate of 21% for the three months and six months ended June 30, 2022 and 2021, due to the valuation allowance on the deferred tax assets.

ASC 740 also clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim period, disclosure and transition.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of June 30, 2022 and December 31, 2021. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

The Company has identified the United States as its only "major" tax jurisdiction. The Company is subject to income taxation by major taxing authorities since inception. These examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with federal and state tax laws. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

(Unaudited)

Net Loss per Common Share

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, “Earnings Per Share.” The Company has two classes of common stock, which are referred to as redeemable common stock and non-redeemable common stock. Income and losses are shared pro rata between the two classes of common stock. Net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding for the period. Remeasurement associated with the redeemable shares of common stock is excluded from net loss per common share as the redemption value approximates fair value.

The calculation of diluted loss per common share does not consider the effect of the warrants issued in connection with the (i) Initial Public Offering, and (ii) the private placement since the exercise of the warrants is contingent upon the occurrence of future events. The warrants are exercisable to purchase 5,980,750 shares of common stock in the aggregate. As of June 30, 2022 and 2021, the Company did not have any dilutive securities or other contracts that could, potentially, be exercised or converted into common stocks and then share in the earnings of the Company. As a result, diluted net loss per common share is the same as basic net loss per common share for the periods presented.

The following tables reflect the calculation of basic and diluted net loss per common share (in dollars, except per share amounts):

	<u>Three Months Ended June 30, 2022</u>		<u>Three Months Ended June 30, 2021</u>		<u>Six Months Ended June 30, 2022</u>		<u>Six Months Ended June 30, 2021</u>	
	<u>Redeemable Common stock</u>	<u>Non-redeemable Common stock</u>	<u>Redeemable Common stock</u>	<u>Non-redeemable Common stock</u>	<u>Redeemable Common stock</u>	<u>Non-redeemable Common stock</u>	<u>Redeemable Common stock</u>	<u>Non-redeemable Common stock</u>
<i>Basic and diluted net loss per common share</i>								
Numerator:								
Allocation of net loss	\$ (27,514)	\$ (7,983)	\$ —	\$ (90)	\$ (121,789)	\$ (35,335)	\$ —	\$ (190)
Denominator:								
Basic and diluted weighted average shares outstanding	<u>11,500,000</u>	<u>3,336,500</u>	<u>—</u>	<u>2,875,000</u>	<u>11,500,000</u>	<u>3,336,500</u>	<u>—</u>	<u>2,875,000</u>
Basic and diluted net loss per common share	\$ (0.00)	\$ (0.00)	\$ —	\$ (0.00)	\$ (0.01)	\$ (0.01)	\$ —	\$ (0.00)

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times may exceed the Federal Depository Insurance Corporation coverage limit of \$250,000. The Company has not experienced losses on these accounts.

ROTH CH ACQUISITION IV CO.

(Unaudited)

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under ASC Topic 820, "Fair Value Measurement," approximates the carrying amounts represented in the accompanying condensed balance sheets, primarily due to their short-term nature.

Recent Accounting Standards

In August 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40) ("ASU 2020-06") which simplifies accounting for convertible instruments by removing major separation models required under GAAP. ASU 2020-06 removes certain settlement conditions that are required for equity contracts to qualify for the derivative scope exception and it also simplifies the diluted earnings per share calculation in certain areas. ASU 2020-06 is effective for fiscal years beginning after December 15, 2023 including interim periods within those fiscal years, with early adoption permitted. The Company adopted ASU 2020-06 on January 1, 2021. The adoption of ASU 2020-06 did not have an impact on the Company's financial statements.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company's condensed financial statements.

NOTE 3. INITIAL PUBLIC OFFERING

On August 10, 2021, pursuant to the Initial Public Offering, the Company sold 11,500,000 Units, which included a full exercise by the underwriters of their over-allotment option in the amount of 1,500,000 Units, at a price of \$10.00 per Unit. Each Unit consists of one share of common stock and one-half of one redeemable warrant ("Public Warrant"). Each whole Public Warrant entitles the holder thereof to purchase one share of common stock at an exercise price of \$11.50 per share, subject to adjustment (see Note 7).

NOTE 4. PRIVATE PLACEMENT

Simultaneously with the closing of the Initial Public Offering, certain of the Initial Stockholders purchased from the Company an aggregate of 461,500 Private Units at a price of \$10.00 per Private Unit, for an aggregate purchase price of \$4,615,000, in a private placement. Each Private Unit consists of one share of common stock ("Private Share") and one-half of one redeemable warrant ("Private Warrant"). Each whole Private Warrant entitles the holder thereof to purchase one share of common stock at a price of \$11.50 per share, subject to adjustment (see Note 7). The proceeds from the Private Units were added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Units will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law).

NOTE 5. RELATED PARTY TRANSACTIONS

Founder Shares

In February 2019, an Initial Stockholder purchased an aggregate of 100 shares of the Company's common stock for an aggregate price of \$25,000. On June 29, 2020, the Company effected a stock dividend of 43,125 shares of common stock for each share of common stock outstanding, resulting in an aggregate of 4,312,500 shares of common stock being outstanding. On July 1, 2021, certain of the Initial Stockholders sold an aggregate of 1,490,874 shares of common stock to the Company for an aggregate purchase price of \$8,643, of which 1,437,500 shares were cancelled and the remaining 53,374 shares were purchased by certain of the Company's officers from the Company for an aggregate purchase price of \$464, resulting in an aggregate of 2,875,000 shares of common stock being outstanding (the "Founder Shares"). The Founder Shares included an aggregate of up to 375,000 shares subject to forfeiture by the Initial Stockholders to the extent that the underwriters' over-allotment was not exercised in full or in part, so that the Initial Stockholders would collectively own approximately 20% of the Company's issued and outstanding shares after the Initial Public Offering (assuming the Initial Stockholders did not purchase any Public Shares in the Initial Public Offering and excluding the Private Shares). As a result of the underwriters' election to fully exercise their over-allotment option, no Founder Shares are subject to forfeiture.

ROTH CH ACQUISITION IV CO.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

The sale of the Founder Shares to certain of the Company's officers, as described above, is within the scope of FASB ASC Topic 718, "Compensation-Stock Compensation" ("ASC 718"). Under ASC 718, stock-based compensation associated with equity-classified awards is measured at fair value upon the grant date. The fair value of the 53,374 shares sold to the Company's officers was \$323,446, or \$6.06 per share. The Founder Shares were effectively sold subject to a performance condition (i.e., the occurrence of a Business Combination). Compensation expense related to the Founder Shares is recognized only when the performance condition is probable of occurrence. Stock-based compensation will be recognized at the date a Business Combination is considered probable in an amount equal to the number of Founder Shares times the grant date fair value per share (unless subsequently modified) less the amount initially received for the purchase of the Founder Shares. As of June 30, 2022, the Company determined that a Business Combination is not considered probable, and, therefore, no stock-based compensation expense has been recognized.

The Initial Stockholders have agreed, subject to certain limited exceptions, not to transfer, assign or sell any of the Founder Shares until (1) with respect to 50% of the Founder Shares, the earlier of six months after the completion of a Business Combination and the date on which the closing price of the common stock equals or exceeds \$12.50 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing after a Business Combination and (2) with respect to the remaining 50% of the Founder Shares, six months after the completion of a Business Combination, or earlier, in either case, if, subsequent to a Business Combination, the Company completes a liquidation, merger, stock exchange or other similar transaction which results in all of the Company's stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Promissory Note — Related Party

On March 3, 2021, the Company issued an unsecured promissory note to an Initial Stockholder (the "Promissory Note"), pursuant to which the Company could borrow up to an aggregate principal amount of \$200,000. The Promissory Note was non-interest bearing and payable on the earlier of the consummation of the Initial Public Offering or the date on which the Company determined not to proceed with the Initial Public Offering. The outstanding balance under the Promissory Note of \$200,000 was repaid at the closing of the Initial Public Offering on August 10, 2021. Borrowings under Promissory Note are no longer available.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Initial Stockholders and certain of the Company's officers and directors (or their affiliates) may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would be repaid upon consummation of a Business Combination, without interest. No Working Capital Loans were outstanding as of June 30, 2022 and December 31, 2021.

Underwriting Agreement and Business Combination Marketing Agreement

On August 5, 2021, the Company entered into an underwriting agreement and a business combination marketing agreement with Roth Capital Partners, LLC ("Roth") and Craig-Hallum Capital Group LLC ("Craig-Hallum"), the underwriters in the Initial Public Offering. The underwriters are related parties of the Company. See Note 6 for a discussion of the business combination marketing agreement.

ROTH CH ACQUISITION IV CO.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

NOTE 6. COMMITMENTS

Registration Rights

Pursuant to a registration rights agreement entered into on August 5, 2021, the holders of the Founder Shares, as well as the holders of the Private Units (and underlying securities), are entitled to registration rights. The holders of a majority of these securities are entitled to make up to two demands that the Company register such securities. The holders of the majority of the Founder Shares can elect to exercise these registration rights at any time commencing three months prior to the date on which these shares of common stock are to be released from escrow. The holders of a majority of the Private Units (and underlying securities) can elect to exercise these registration rights at any time after the Company consummates a Business Combination. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the consummation of a Business Combination. The registration rights agreement does not contain liquidating damages or other cash settlement provisions resulting from delays in registering the Company’s securities. The Company will bear the expenses incurred in connection with the filing of any such registration statements. Notwithstanding the foregoing, the holders may not exercise demand or piggyback rights after five (5) and seven (7) years, respectively, from the effective date of the Initial Public Offering and may not exercise demand rights on more than one occasion in respect of all registrable securities.

Business Combination Marketing Agreement

Pursuant to a business combination marketing agreement entered into on August 5, 2021, the Company engaged Roth and Craig-Hallum, the underwriters in the Initial Public Offering, as advisors in connection with its Business Combination to assist in the transaction structuring and negotiation of a definitive purchase agreement with respect to the Business Combination, hold meetings with the stockholders to discuss the Business Combination and the target’s attributes, introduce the Company to potential investors to purchase its securities in connection with the Business Combination, assist in obtaining stockholder approval for the Business Combination, and assist with financial analysis, presentations, press releases and filings related to the Business Combination. The Company will pay Roth and Craig-Hallum a fee for such services upon the consummation of a Business Combination in an amount equal to, in the aggregate, 4.5% of the gross proceeds of the Initial Public Offering, or \$5,175,000. Roth and Craig-Hallum will not be entitled to such fee unless the Company consummates a Business Combination.

NOTE 7. STOCKHOLDERS’ EQUITY

Common Stock — The Company is authorized to issue 50,000,000 shares of common stock with a par value of \$0.0001 per share. At June 30, 2022 and December 31, 2021, there were 3,336,500 shares of common stock issued and outstanding, excluding 11,500,000 shares of common stock subject to possible redemption which are presented as temporary equity.

Warrants — As of June 30, 2022 and December 31, 2021, there were 5,750,000 Public Warrants and 230,750 Private Warrants outstanding.

The Company will not issue fractional warrants. The Public Warrants will become exercisable 30 days after the completion of a Business Combination. No warrants will be exercisable for cash unless the Company has an effective and current registration statement covering the shares of common stock issuable upon exercise of the warrants and a current prospectus relating to such shares of common stock. Notwithstanding the foregoing, if the registration statement of which the prospectus for the Company’s Initial Public Offering forms a part is not available and a new registration statement covering the shares of common stock issuable upon exercise of the Public Warrants is not effective within 120 days following the consummation of a Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company shall have failed to maintain an effective registration statement, exercise warrants on a cashless basis pursuant to an available exemption from registration under the Securities Act. The warrants will expire five years from the closing of a Business Combination.

The Company may redeem the Public Warrants:

- in whole and not in part;

ROTH CH ACQUISITION IV CO.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

- at a price of \$0.01 per warrant;
- at any time after the warrants become exercisable;
- upon not less than 30 days' prior written notice of redemption to each warrant holder;
- if, and only if, the reported last sale price of the shares of common stock equals or exceeds \$18.00 per share, for any 20 trading days within a 30-day trading period commencing after the warrants become exercisable and ending on the third business day prior to the notice of redemption to warrant holders; and
- if, and only if, there is a current registration statement in effect with respect to the shares of common stock underlying such warrants at the time of redemption and for the entire 30-day trading period referred to above and continuing each day thereafter until the date of redemption.

If the Company calls the Public Warrants for redemption, management will have the option to require all holders that wish to exercise the Public Warrants to do so on a "cashless basis," as described in the warrant agreement. The exercise price and number of shares of common stock issuable on exercise of the warrants may be adjusted in certain circumstances including in the event of a stock dividend, extraordinary dividend or recapitalization, reorganization, merger or consolidation. However, except as described below, the warrants will not be adjusted for issuances of shares of common stock at a price below their respective exercise prices. Additionally, in no event will the Company be required to net cash settle the warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

In addition, if (x) the Company issues additional shares of common stock or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per share of common stock (with such issue price or effective issue price to be determined in good faith by the Company's board of directors), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the consummation of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Company's common stock during the 20 trading day period starting on the trading day prior to the day on which the Company consummates Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the Market Value and the \$18.00 per share redemption trigger price described above will be adjusted (to the nearest cent) to be equal to 180% of the Market Price.

Except with respect to certain registration rights and transfer restrictions, the Private Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering.

NOTE 8. FAIR VALUE MEASUREMENTS

The Company follows the guidance in ASC 820 for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually.

ROTH CH ACQUISITION IV CO.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

The fair value of the Company’s financial assets and liabilities reflects management’s estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.

Level 3: Unobservable inputs based on our assessment of the assumptions that market participants would use in pricing the asset or liability.

The following table presents information about the Company’s assets that are measured at fair value on a recurring basis at June 30, 2022 and December 31, 2021 and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

Description	Level	June 30, 2022	December 31, 2021
Assets:			
Marketable securities held in Trust Account	1	\$ 116,921,818	\$ 116,738,316

NOTE 9. SUBSEQUENT EVENTS

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the condensed financial statements were issued. Based upon this review, other than disclosed below, the Company did not identify any subsequent events that would have required adjustment or disclosure in the condensed financial statements.

Service Agreement

On July 5, 2022, the Company engaged Roth Capital Partners, LLC and Craig-Hallum Capital Group LLC (together, the “financial advisors”) to provide services in connection with a proposed financing by the Company in connection with a business combination. In connection with this agreement the Company may be required to pay fees in connection with their services to the extent that the financing is executed. If during the term of the agreement the Company completes a financing of equity securities, convertible securities or debt of the Company, the Company has agreed to pay the financial advisors a fee in the amount of 4.0% of the gross proceeds raised. Each advisor would receive 50% of any placement agent fee, which will be paid upon the closing of the offering and business combination. The term of the agreement will run until the earlier of the date that the Company completes any Business Combination and otherwise liquidates the funds held in the Trust Account.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

References in this report (this "Quarterly Report") to "we," "us" or the "Company" refer to Roth CH Acquisition IV Co. References to our "management" or our "management team" refer to our officers and directors. The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Special Note Regarding Forward-Looking Statements

This Quarterly Report includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), that are not historical facts and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Quarterly Report, including, without limitation, statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" regarding the search for an initial business combination, the Company's financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as "expect," "believe," "anticipate," "intend," "estimate," "seek" and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management's current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company's Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission (the "SEC"). The Company's securities filings can be accessed on the EDGAR section of the SEC's website at www.sec.gov. Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

Overview

We are a blank check company incorporated in Delaware on February 13, 2019. We were formed for the purpose of entering into a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or other similar business combination with one or more businesses or entities, which we refer to herein as our "Business Combination." We intend to effectuate our Business Combination using cash derived from the proceeds of the Initial Public Offering (as defined below) and the sale of the Private Units (as defined below), our capital stock, debt or a combination of cash, stock and debt.

The issuance of additional shares of our stock in a Business Combination:

- may significantly reduce the equity interest of our stockholders;
- may subordinate the rights of holders of common stock if we issue preferred shares with rights senior to those afforded to our shares of common stock;
- will likely cause a change in control if a substantial number of our shares of common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and most likely will also result in the resignation or removal of our present officers and directors; and
- may adversely affect prevailing market prices for our securities.

Similarly, if we issue debt securities or otherwise incur significant indebtedness, it could result in:

- default and foreclosure on our assets if our operating revenues after a business combination are insufficient to pay our debt obligations;

[Table of Contents](#)

- acceleration of our obligations to repay the indebtedness even if we have made all principal and interest payments when due if the debt security contains covenants that required the maintenance of certain financial ratios or reserves and we breach any such covenant without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand; and
- our inability to obtain additional financing, if necessary, if the debt security contains covenants restricting our ability to obtain additional financing while such security is outstanding.

We expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to complete a Business Combination will be successful.

Results of Operations

We have neither engaged in any operations nor generated any revenues to date. Our only activities through June 30, 2022 were organizational activities, those necessary to prepare for the Initial Public Offering, which is described below, and subsequent to the Initial Public Offering, identifying a target company for a Business Combination. We do not expect to generate any operating revenues until after the completion of our Business Combination, at the earliest. We generate non-operating income in the form of interest income on marketable securities held in the Trust Account (as defined below). We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses in connection with searching for, and completing, a Business Combination.

For the three months ended June 30, 2022, we had a net loss of \$35,497, which was comprised of operational costs of \$180,847, unrealized loss on marketable securities held in Trust Account of \$4,277, provision for income taxes of \$4,372 and interest earned on marketable securities held in Trust Account of \$153,999.

For the six months ended June 30, 2022, we had a net loss of \$157,124, which was comprised of operational costs of \$336,254 and provision for income taxes of \$4,372, offset by interest earned on marketable securities held in Trust Account of \$183,502.

For the three months ended June 30, 2021, we had net loss of \$90, which was comprised of operational costs.

For the six months ended June 30, 2021, we had net loss of \$190, which was comprised of operational costs.

Liquidity and Capital Resources

On August 10, 2021, we completed our initial public offering (the “Initial Public Offering”) of 11,500,000 units (the “Units” and, with respect to the shares of common stock included in the Units sold, the “Public Shares”), which included the full exercise by the underwriters of their over-allotment option in the amount of 1,500,000 Units, at \$10.00 per Unit, generating gross proceeds of \$115,000,000. Simultaneously with the closing of the Initial Public Offering, we completed the sale of 461,500 units (the “Private Units”) at a price of \$10.00 per Private Unit in a private placement to certain of the holders of the Company’s shares prior to the Initial Public Offering (the “Initial Stockholders”), generating gross proceeds of \$4,615,000.

Following the Initial Public Offering, including the full exercise of the over-allotment option by the underwriters, and the sale of the Private Units, a total of \$116,725,000 was placed in a trust account located in the United States (the “Trust Account”). We incurred \$1,646,673 of transaction costs, consisting of \$1,150,000 of underwriting fees and \$496,673 of other offering costs.

For the six months ended June 30, 2022, cash used in operating activities was \$400,925. Net loss of \$157,124 was affected by interest earned on marketable securities held in Trust Account of \$183,502. Changes in operating assets and liabilities used \$60,299 of cash for operating activities.

For the six months ended June 30, 2021, cash used in operating activities was \$640. Net loss of \$190 was affected by changes in operating assets and liabilities which used \$450 of cash for operating activities.

[Table of Contents](#)

As of June 30, 2022, we had marketable securities held in the Trust Account of \$116,921,818 (including approximately \$197,000 of interest income) consisting of money market funds which primarily invest in U.S. Treasury securities. Interest income on the balance in the Trust Account may be used by us to pay taxes. Through June 30, 2022, we have not withdrawn any interest earned from the Trust Account. We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (less income taxes payable), to complete our Business Combination. To the extent that our capital stock or debt is used, in whole or in part, as consideration to complete our Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

As of June 30, 2022, we had cash of \$401,681. We intend to use the funds held outside the Trust Account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a Business Combination.

In order to finance transaction costs in connection with a Business Combination, the Initial Stockholders and certain of our officers and directors (or their affiliates) may, but are not obligated to, loan us funds as may be required (“Working Capital Loans”). If we complete a Business Combination, we would repay the Working Capital Loans out of the proceeds of the Trust Account released to us. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, we may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would be repaid upon consummation of a Business Combination, without interest.

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating a Business Combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial Business Combination. Moreover, we may need to obtain additional financing either to complete our Business Combination or because we become obligated to redeem a significant number of our Public Shares upon completion of our Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination.

Going Concern

We will need to raise additional capital through loans or additional investments from the Initial Stockholders and our officers and directors or their affiliates. The Initial Stockholders and our officers and directors or their affiliates may, but are not obligated to, loan us funds, from time to time or at any time, in whatever amount they deem reasonable in their sole discretion, to meet our working capital needs. Accordingly, we may not be able to obtain additional financing. If we are unable to raise additional capital, we may be required to take additional measures to conserve liquidity, which could include, but not necessarily be limited to, curtailing operations, suspending the pursuit of a potential transaction, and reducing overhead expenses. We cannot provide any assurance that new financing will be available to us on commercially acceptable terms, if at all.

In connection with our assessment of going concern considerations in accordance with the FASB’s Accounting Standards Update (“ASU”) 2014-15, “Disclosures of Uncertainties about an Entity’s Ability to Continue as a Going Concern,” management has determined that if we are unable to complete a Business Combination by February 10, 2023, then we will cease all operations except for the purpose of liquidating. The date for mandatory liquidation and subsequent dissolution raises substantial doubt about our ability to continue as a going concern. No adjustments have been made to the carrying amounts of assets or liabilities should we be required to liquidate after February 10, 2023.

Off-Balance Sheet Arrangements

We have no obligations, assets or liabilities, which would be considered off-balance sheet arrangements as of June 30, 2022. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.

Contractual obligations

We do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities, other than as described below.

Pursuant to a business combination marketing agreement entered into on August 5, 2021, we have engaged Roth Capital Partners, LLC (“Roth”) and Craig-Hallum Capital Group LLC (“Craig-Hallum”), the underwriters in the Initial Public Offering, as advisors in connection with our Business Combination to assist us in the transaction structuring and negotiation of a definitive purchase agreement with respect to the Business Combination, hold meetings with our stockholders to discuss the Business Combination and the target’s attributes, introduce us to potential investors to purchase our securities in connection with the Business Combination, assist us in obtaining stockholder approval for the Business Combination, and assist us with financial analysis, presentations, press releases and filings related to the Business Combination. We will pay Roth and Craig-Hallum a fee for such services upon the consummation of a Business Combination in an amount equal to, in the aggregate, 4.5% of the gross proceeds of the Initial Public Offering, or \$5,175,000. Roth and Craig-Hallum will not be entitled to such fee unless we consummate a Business Combination.

Critical Accounting Policies

The preparation of condensed financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies:

Common Stock Subject to Possible Redemption

We account for our common stock subject to possible conversion in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480, “Distinguishing Liabilities from Equity.” Common stock subject to mandatory redemption is classified as a liability instrument and measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) is classified as temporary equity. At all other times, common stock is classified as stockholders’ equity. Our common stock features certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, common stock subject to possible redemption is presented at redemption value as temporary equity, outside of the stockholders’ equity section of our condensed balance sheets.

Net Loss Per Common Share

Net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. We have two classes of common stock, which are referred to as redeemable common stock and non-redeemable common stock. Income and losses are shared pro rata between the two classes of common stock. Remeasurement associated with the redeemable shares of common stock is excluded from loss per common share as the redemption value approximates fair value.

Recent Accounting Standards

In August 2020, the FASB issued ASU No. 2020-06, “Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity” (“ASU 2020-06”), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. ASU 2020-06 removes certain settlement conditions that are required for equity contracts to qualify for the derivative scope exception and it also simplifies the diluted earnings per share calculation in certain areas. ASU 2020-06 is effective for fiscal years beginning after December 15, 2023, including interim periods within those fiscal years, with early adoption permitted. We adopted ASU 2020-06 on January 1, 2021. The adoption of ASU 2020-06 did not have an impact on our financial statements.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our condensed financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As a smaller reporting company, we are not required to make disclosures under this Item.

Item 4. Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Evaluation of Disclosure Controls and Procedures

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2022. Based upon their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15 (e) and 15d-15 (e) under the Exchange Act) were not effective due solely to the material weakness in our internal control over financial reporting related to the Company's accounting for complex financial instruments. As a result, we performed additional analysis as deemed necessary to ensure that our financial statements were prepared in accordance with U.S. generally accepted accounting principles. Accordingly, management believes that the financial statements included in this Form 10-Q present fairly in all material respects our financial position, results of operations and cash flows for the period presented.

Management intends to implement remediation steps to improve our disclosure controls and procedures and our internal control over financial reporting. Specifically, we intend to expand and improve our review process for complex securities and related accounting standards. We have improved this process by enhancing access to accounting literature, identification of third-party professionals with whom to consult regarding complex accounting applications and consideration of additional staff with the requisite experience and training to supplement existing accounting professionals.

Management's Report on Internal Controls Over Financial Reporting

This Quarterly Report on Form 10-Q does not include a report of management's assessment regarding internal control over financial reporting or an attestation report of our independent registered public accounting firm due to a transition period established by rules of the SEC for newly public companies.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during quarter ended June 30, 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors

As a smaller reporting company, we are not required to make disclosures under this Item. We have provided a comprehensive list of risk factors in the Annual Report on Form 10-K as filed with the SEC on April 7, 2022.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

The following exhibits are filed as part of, or incorporated by reference into, this Quarterly Report on Form 10-Q.

No.	Description of Exhibit
31.1*	Certification of Principal Executive Officer Pursuant to Securities Exchange Act Rules 13a-14(a) and 15(d)-14(a), as adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
31.2*	Certification of Principal Financial Officer Pursuant to Securities Exchange Act Rules 13a-14(a) and 15(d)-14(a), as adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
32.1**	Certification of Principal Executive Officer Pursuant to 18 U.S.C. Section 1350, as adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
32.2**	Certification of Principal Financial Officer Pursuant to 18 U.S.C. Section 1350, as adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

* Filed herewith.

** Furnished herewith. This certification is being furnished solely to accompany this report pursuant to 18 U.S.C. Section 1350, and is not being filed for purposes of Section 18 of the Exchange Act of 1934, as amended, and is not to be incorporated by reference into any filings of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

ROTH CH ACQUISITION IV CO.

Date: August 12, 2022

By: /s/ Byron Roth
Name: Byron Roth
Title: Co-Chief Executive Officer and Chairman of the Board
(Principal Executive Officer)

Date: August 12, 2022

By: /s/ Gordon Roth
Name: Gordon Roth
Title: Chief Financial Officer
(Principal Accounting and Financial Officer)

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO RULE 13A-14(A) AND 15D-14(A) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Byron Roth, certify that:

1. I have reviewed this quarterly report on Form 10-Q for the quarterly period ended June 30, 2022 of Roth CH Acquisition IV Co.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, is made known to us by others within those entities, particularly during the period in which this report is being prepared; and
 - b) (Paragraph omitted pursuant to Exchange Act Rules 13a-14(a) and 15d-15(a));
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
